

2009 Annual Report

SILVER STANDARD RESOURCES INC.

► Silver Standard is a mining company focused strictly on silver. They have assembled the largest silver resource of any publicly traded silver company.

Engaging Red Rocket to theme and design their 2009 report, Silver Standard was looking to communicate how their continued focus on exploration and project pipeline expansion positions them to deliver sustained growth.

'In Focus' provides a theme that evidences how the company's focus in all areas of its business supports and enhances its growth during a critical time, transitioning from a resource company to an operating mining company.

Large full-page info graphics ensure immediate reader engagement with the most important facts. Simple clean graphs, tables and maps provide investor information at a glance and create a visually engaging informative report.
